

# Upper Alton Baptist Church

»»»» helping people know Jesus

Thursday, 29 July 2021

Dear UABC,

As we have done throughout the pandemic, your Executive Ministry Team has done our best to make decisions on protocols to protect all parts of our congregation. Please know that these decisions are difficult and that we approach them prayerfully each time and we have consistently relied on CDC and local health department guidance along with following state requirements.

We know that the news of returning to masks for all is not the news most wanted to hear however, that is where we are in the pandemic.

This whole pandemic has been difficult. May we always remember that our God is in control and that we can always lean on Him for strength, understanding, and peace.

If you have any questions, please do not hesitate to reach out.

Sincerely,  
Abigail Knoche  
Congregational President
